TEE Probe Repair & Refurbishment

Our service is your success

International

We supply our equipment to over 30 countries across the world. Our distribution network continues to grow and grow - just like ourselves. Actually we have eight offices in different countries of Europe

A specialized service unit

Our large warehouse has a wide range of spare parts on stock, which could be ordered separately. We offer a perfect refurbishment of ultrasound systems too. Thanks to the large number of devices we keep at our disposal, we can rapidly supply a suitable replacement device whenever required

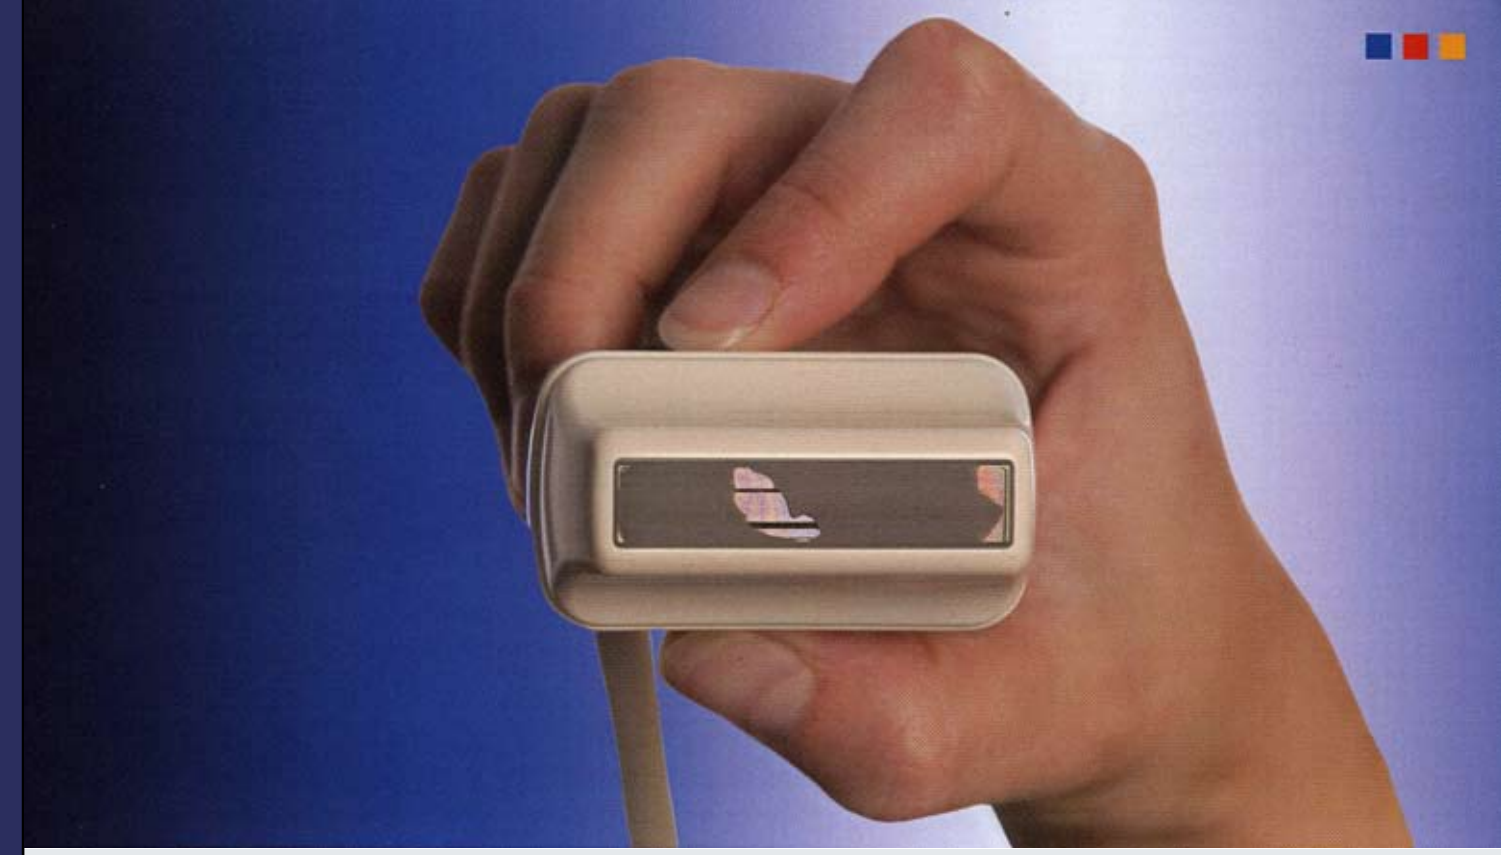

Showrooms

Our showrooms always feature over 150 new and used ultrasound systems as well as laboratory, densitometers and other medical products from prestigious manufacturers. They're the place to go to make direct comparisons and select from a truly wide range of equipment.

MIDES
QUALITY MAKES THE DIFFERENCE

Probe Repair & Refurbishment

Cost effectively analysis

Preventative probe testing could discover minor problems before they turn into expensive failures. Most of the probes can be repaired for a minimum of the cost of a new probe !

Before

After

Maximum benefits at low costs !

A probe analysis identifies hidden problems so repair / replacement can be planned and resolved before image or Doppler quality gets lost !

- ___ Cable & Connector repair
- ___ Strain relief replacement
- ___ Lens repair
- ___ Probe evaluation
- ___ Refurbished probe
- ___ Repair of Cristal Defects
- ___ TEE probes repair

Perfect probe repair

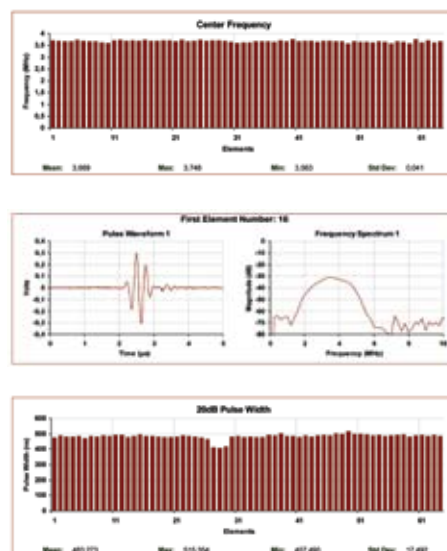

Our cost- effective solution to repair probes is based on 20 years of know-how in ultrasound experience. We offer special ultrasound probe repair facilities. Our experience allows us to complete electrical, mechanical and other repairs cost-effectively.

Our service includes :

- ___ Entrance - control
- ___ Complete analysis
- ___ Probe repair
- ___ Certificate
- ___ End-control
- ___ Documentation
- ___ Guaranty
- ___ Probes to lend available

If nonrepair - new & refurbished exchange probes and head replacement at cheap conditions
